Cost-effective system integration

Trainor has signed an agreement for integration between trainor.no and OCS, meaning that our customers who use the OCS HR system will be able to book, assign and implement Trainor courses directly in their own HR system. Reports and updated competence matrix will also be available via OCS as soon as a course is completed.

- More to come

- We are always looking for solutions that are cost effective for our customers, says Department Manager Stian Martinsen in Trainor. Several of our customers use OCS, and it is natural that we make our courses available

through this system.

According to Martinsen OCS is not the only HR-integration trainor.no plans to integrate with. - Our new website makes it easy to integrate more HR systems, he explains.

Trainor expect to be fully integrated with the OCS by the end of the year. Please do not hesitate to contact us if you want an integration with your HR system.

This is OCS

OCS makes software solutions for offshore and maritime industry. OCS HR is a modular tool for rotation planning, competence management, travel administration and training. Read more about OCS on www.onsoft.no

Trainor is an internationally recognized EdTech company setting new standards for safety training. We provide training services, digital solutions and technical consultancy services to offshore, maritime and land-based industries worldwide. Trainor is a part of [Apave Group](#).
