Trainor achieves re-certification in ISO 9001, as well as certifications in ISO 14001 and ISO 27001

Trainor, leading provider of electrical safety training is pleased to announce its recent achievements in obtaining re-certification in ISO 9001, as well as certifications in ISO 14001 and ISO 27001. These certifications demonstrate Trainor's commitment to excellence in quality management, environmental stewardship, and information security.

Quality management since 2014

ISO 9001 is an internationally recognized standard for quality management systems. By successfully re-certifying in ISO 9001, Trainor has demonstrated its dedication to meeting customer expectations, continuous improvement, and delivering high-quality products and services. This achievement further strengthens Trainor's position as a trusted partner for its clients and highlights its unwavering focus on customer satisfaction.

Reducing environmental footprint

In addition to ISO 9001, Trainor has also obtained certifications in ISO 14001 and ISO 27001. ISO 14001 is a globally recognized standard for environmental management systems, emphasizing Trainor's commitment to minimizing its environmental impact, complying with applicable regulations, and implementing sustainable practices throughout its operations.

“Sustainability and social responsibility are fundamentally important to us”, Said Head of Communications, HR and ESG at Trainor, Eva Nordskog, She points out that Trainor's mission is to safeguard lives and assets by increasing knowledge and awareness about electrical safety. “Certification in ISO 14001 has been an educational journey, while the certificate reflects our commitments to social responsibility and continuous efforts to minimize our environmental footprint”, she said.

Information security at the forefront

ISO 27001, on the other hand, is the international standard for information security management systems.

“This certification confirms our commitment to protecting our clients' sensitive information, ensuring data confidentiality, integrity, and availability. By obtaining ISO 27001 certification, Trainor showcases its ability to effectively manage risks, protect against potential data breaches, and maintain the highest level of information security practices”, said Lars Bratli, Team Leader Digital at Trainor.

HSEQ Coordinator Ingunn Stensgård has coordinated the work with the ISO certifications.

“The certifications are confirmation of Trainor's unwavering dedication to quality, environmental responsibility and information security”, she said.

"We are proud to have achieved re-certification in ISO 9001 and certifications in ISO 14001 and ISO 27001. These achievements demonstrate our commitment to excellence and provide our clients with the assurance that we adhere to the highest standards in every aspect of our operations."

By meeting the stringent requirements set by ISO, Trainor has underscored its commitment to continuous improvement and customer satisfaction. The certifications also serve as a testament to Trainor's proactive approach to environmental protection and information security, assuring clients and stakeholders of the company's responsible practices.

"Trainor remains dedicated to maintaining these certifications and will continue to focus on delivering outstanding services while upholding the principles outlined by ISO. The company's commitment to quality, environmental sustainability, and information security will be integral to its future growth and success", said Stian Martinsen.

Trainor is an internationally recognized EdTech company setting new standards for safety training. We provide training services, digital solutions and technical consultancy services to offshore, maritime and land-based industries worldwide.
