Trainor partner with CompEx

Trainor has partnered with the certification body CompEx to develop a cutting-edge library of e-learning for workers in hazardous areas. - A great acknowledgement of the next generation e-learning we make at Trainor, says Chief Commercial Officer Morten Aasen.

- Through our collaboration with CompEx, we are taking a huge step further into our vision to set new standards for safety training and contribute to a safer industry worldwide, says Morten.

-At CompEx, we are always striving to make learning and assessment as engaging and relevant as possible for learners. Results from our industry research tell us that e-learning has already become an important part of training and development for employers. Customers are really clear that e-learning will continue to play a significant role in managing competency. That's why we are working with Trainor to ensure that employers and their staff have access to best-in-class e-learning. Critically this e-learning supports and enhances the practical training and assessment delivered by our network of over 60 highly experienced training providers, says CompEx Director Huw Bement.

Trainor's e-learning is based on an interactive 3D world named "*Electri City*", that creates an immersive learning experience for users. Using Unreal Engine, the same graphics engine gaming giants such as Xbox and PlayStation utilize within their games, *Elektri City* delivers a high quality, engaging, intuitive, experience for learners.

Utilizing cinematic storytelling and sound design, *Electri City* provides learners with realistic, technically accurate content that has been reviewed and approved by subject matter experts.

- The whole experience of working with CompEx has been a great acknowledgement of the next generation of e-learning that we make at Trainor, says Morten.

Trainor is an internationally recognized EdTech company setting new standards for safety training. We provide training services, digital solutions and technical consultancy services to offshore, maritime and land-based industries worldwide.
